Playground Upgrade

- **Accessibility:** ADA features needed
- **Materials:** Unsustainable wood chips, drainage issues
- **Safety:** Address aging structure concerns
- **Flow:** Improve space for family use

Local Conservation Project	Amount	Percentage
Grant Amount Request	$25,000	6%
Applicant Match	$374,000	94%
Total Project Cost	**$399,000**	**100%**

Public Engagement & Input Summary

Survey open from April 11th, 2024 through April 24th, 2024

KEY TAKEAWAYS ON THE PLAYGROUND REDESIGN:

"It would be really nice to see a newer and bigger playground for the kids to have more room to run and climb on"

"I like separate areas for the age groups and different seating options for the adults to watch."

"Why are you keeping the old tired play sets those should be replaced."

"Existing playground structure must be fixed as it has missing pieces that create a large safety risk for children."

"Please completely remove the wood chips from the existing play area... Replace with softer, kid-friendly, fall-friendly material - like cushiony rubber."

"Please don't keep the existing structure. This is direct comment from my 11 year old who has played there since he was born."
